## **DETAILED ACTION**

### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claims 1-22 & 30-41 are canceled.

### ***Allowable Subject Matter***

3. Claims 23-29, 42 & 43 are allowed.

4. The following is an examiner's statement of reasons for allowance: A thorough search of the prior art fails to disclose any reference or references, which, taken alone or in combination, teach or suggest, in combination with the other limitations, that the second of the display bodies is displayed in a differing shape depending on the movement mode of the first display body. Okano et al. (US Patent Number 5,649,861), the nearest prior art teaches a second display body (25) that moves along with the first display body (24). (See Fig 7B.) But the second display body (25) is designed to show the player which controls to operate and changing the shape depending on the movement of the first body (24) would make it difficult for the player to determine which buttons to push. This would destroy the reference.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Election/Restrictions***

6. This application is in condition for allowance except for the presence of claims 1-22 & 30-41 directed to species non-elected without traverse. Accordingly, claims 1-22 & 30-41 have been cancelled.
